

Giuseppe's Suite

Room of the Valtellinese Stove

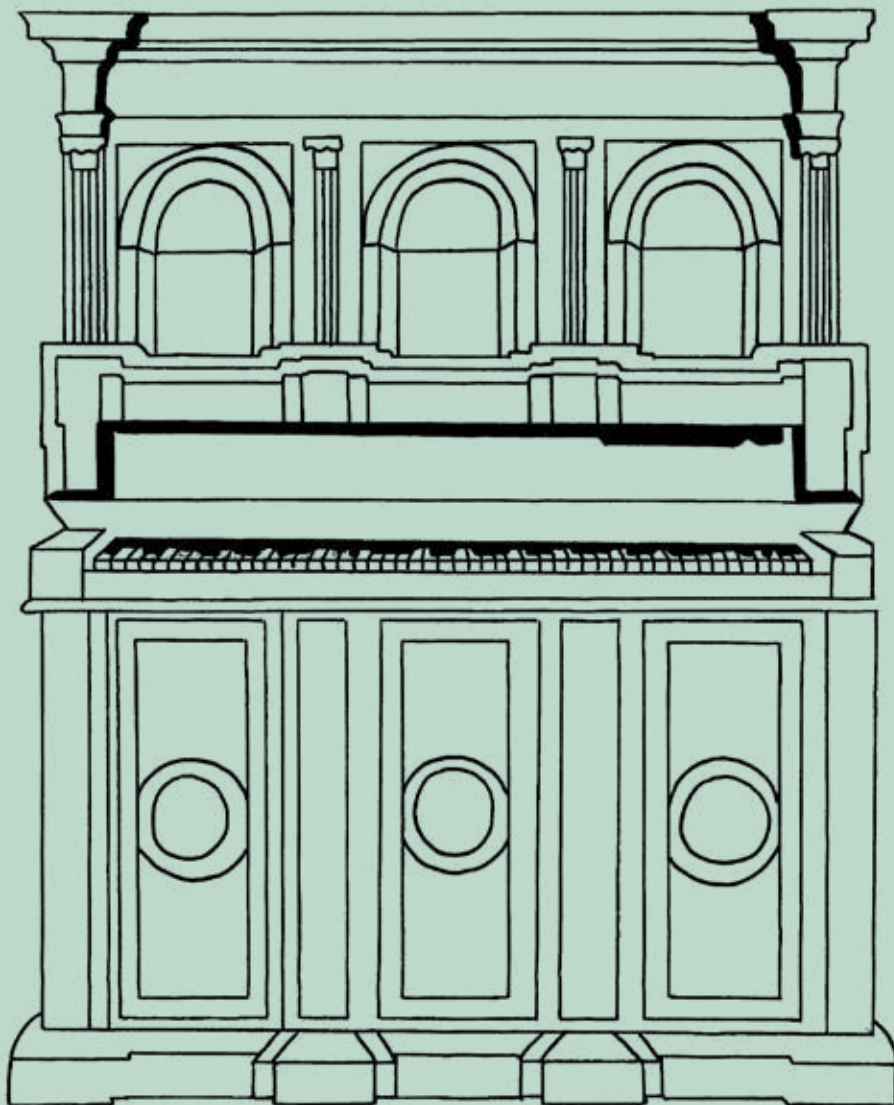

10

Here we are in the living room of Giuseppe and Carolina.

There's a strange piece of furniture, can you see it?

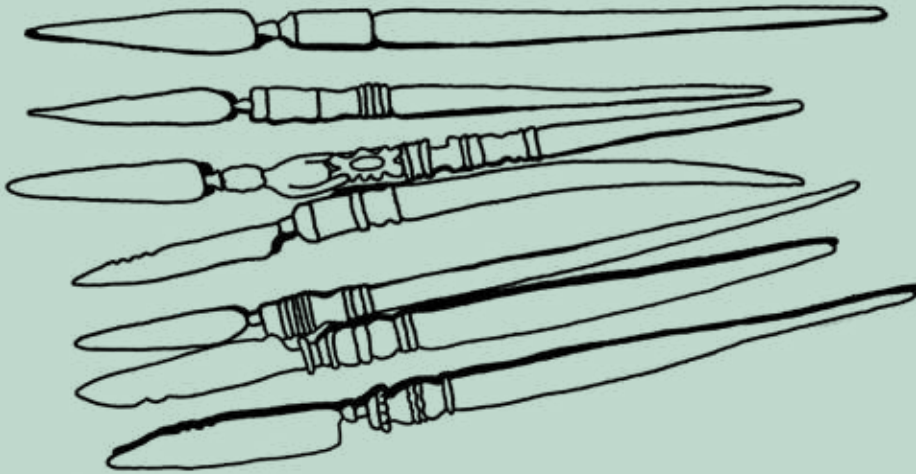

It's not a piece of furniture, it's a piano!

Carolina played it to entertain friends.

On the table in the middle of the room there are strange objects that look like knives, can you see them?

They are called “scrapers” and were used to “erase” errors by scraping away the ink, but you had to be careful not to make a hole!

Now look at the walls. Up high, there is a border of sculpted wood, like the wood of Fausto’s bed, do you remember?

The border is called a “frieze”.

Can you tell what figures the frieze shows?

They seem to me like lots of little animals...

Answer: in the frieze there are a horse, a dragon, a donkey, a squirrel, an eagle and many other animals.
